

# **FORT H. G. WRIGHT**

## **Fishers Island, New York**

**US Army Corps  
Of Engineers®  
New York District**

---

### **FACT SHEET**

**September 2007**

---

**DESCRIPTION:** The Fort H.G. Wright site is located on the Southerly portion of Fishers Island, County of Suffolk, State of New York with a total area of 412.45 acres in fee and easements. The site was utilized by the U.S. Army as Harbor Defense project for this area. The site were provided with four (4) Batteries, one (1) ordnance building, one (1) jail house, one (1) pump house, three (3) unidentified brick buildings, fuel storage tank, observation building, water tank, three (3) officers quarters, theater, and dumping site. In 1948 the site was disposed to several ownerships starting with the Department of the Navy, the U.S. Coast Guard, the Town of Southold, fishers Island School District, Race Point Development and Fishers Island development Corporations. The above mentioned developers have subsequently sub-divided the site into numerous residential and multiple commercial lots.

**AUTHORIZATION:** Comprehensive Environmental Response Compensation and Liability Act (CERCLA) authorized Federal action to respond to the release or threatened release of hazardous substances, from any source, into any part of the environment. As a result of the former Fort H. G. Wright activities, there is only one project approved MMRP SI OEW project.

**STATUS :** Project MMRP SI fieldwork was completed January 2007. Second TPP meeting was completed 12 September 2007. Conclusion and recommendation proposed Remedial Investigation and Feasibility Study (RI/FS). Final SI report completed September 2007 by Alion Science and Technology (Contractor).
